

Fraste MITO 40 Track Drill

UNIT# DR613

Our Fraste MITO 40 Track Rig is ideal for Horizontal Drains, Foundation Works or other Civil Construction and Mine Development Projects. With its directional mast, it can drill on almost any angle and get the borehole collar into the tightest of locations. The Multi-Speed, side shift drill head also makes it a Great Rig for Geotechnical, Environmental and Exploration Projects. With its companion air compressor and multiple onboard high-pressure fluid pumps, this drill is capable of Air Rotary, Mud Rotary, Auger and Core Drilling.

Factory Drilling Capacities and Methods:

- Diamond core drilling ~ 200 M (HQ 3)
- Rotary drilling ~ 150 M
- Hollow Stem Auger ~45 M
- Continuous Flight Auger ~ 90

Note: Above drilling capacities may vary according to subsurface conditions

Drill Specifications:

- 100 HP Diesel-powered
- 9,000 ft lbs Torque
- 19 ft mast with 9 ft of stroke feed
- 9,000 lbs pull-back force
- 3 winch lines
- Double Casing/Rod Clamp with hydraulic breaking
- Efficiency calibrated automatic SPT hammer
- Moyno 400 PSI grout pump
- FMC Bean 4 Cyl. 1000 PSI coring pump
- Rupe 100 GPM/300 PSI mud pump
- Hypro 500 PSI water injection pump for air rotary
- Built-in 25,000 lbs casing jacks
