

MARL M-10 Tandem Truck Mount Rig

Unit# DR612

Westech's M-10 truck mount drill rig will be in service Spring 2024. Our unit will be outfitted with all the onboard accessories that generally set Westech rigs apart from the pack. We consider the M-10 to be the undisputed leader in auger rig capability and reliability. Westech's unit will have the added ability to perform ODEX Air Rotary as well as Mud Rotary Drilling methods. We will also be adding an HQ auxiliary head for basic bedrock-coring needs that are often not in the original "Auger" drilling plan.

Factory Drilling Capacities and Methods:

- Rotary Drilling ~ 250 M (Open hole air or mud)
- Hollow Stem Auger ~ 60 M
- Continuous Flight Auger ~ 75 M
- 4", 5", 6", 8" ODEX Air Rotary Casing to 70 M
- This unit will be set up for HQ wireline coring in the future

Note: Above drilling capacities may vary according to subsurface conditions

Drill Specifications:

- 300 HP truck with Pro Heat
- Tandem 5-tonne with full rear lockers
- 30ft mast with 6 ft stroke feed
- 35,000 lbs pull-back, 12 ft torque
- 4 winch lines capable of hanging 100 ft of rods during sampling
- Casing/Rod Clamp with hydraulic rod break
- Automatic SPT hammer
- Moyno 400 PSI grout pump
- Rupe/Centerline 100-300 gal. mud pump
- HyPro 500 PSI water injection pump for air rotary
- On board air compressor inline oiler
- On board tool boxes and casing/rod storage
